Dear relatives and friends,

Gold Standards!!

Anyone see our feature with Beechwood Cheshire Home on Friday 5th Feb?? We are one of only 33 homes from across the country to be recognised in this work, I also got fined £120.00 in congestion charges – dam it, but worth it!!! We've also been featured in the latest Care in Kirklees Newsletter in relation to the GSF.

ICT

We were informed from Bronwynn Bennett (Planning & Development Officer from Kirklees) that the Government has some funding for ICT in the private sector; we have so far submitted an expression of interest for the 'Get Connected Investment Project' to the Social Care Institute for Excellence. With this funding it is our intention for staff to support their learning through accessing training via the internet and to also complete daily reports (which is very time consuming when hand written), on speaking with the staff they felt that this would benefit them tremendously, which would then give them more time to spend with service users. We're also thinking of developing a website with this funding for easier access and communication between the Home and you.

Also, **please please please** if you have access to the internet, **let me have your e-mail address** to forward you newsletters, invoices etc.
